WELCOME MESSAGE

Dear Colleagues,

On behalf of the Organizing Committee, we are delighted to announce that The 14th National Biotherapy Conference and The 3rd International CIK Cell Conference will be held in Tianjin, China from October 15 to 18, 2026. We sincerely welcome you to gather in Tianjin to share the latest advances, opportunities and challenges in biotherapy.

Cell and gene therapy, antibody therapy and other innovative technologies are revolutionizing the treatment of cancer, infectious diseases, aging-related disorders and autoimmune diseases. This conference will invite world-renowned experts to share cutting-edge progress in biotherapy and translational research. A training workshop on quality control of immune cell therapy and precision molecular detection will also be held to promote standardized development and international collaboration.

As one of the most clinically mature immune cell therapies, CIK cell therapy has shown unique value in cancer adjuvant treatment, recurrence prevention and combination therapy. Following successful sessions in Germany and Italy, the 3rd International CIK Cell Conference will be held in China for the first time, focusing on global clinical progress, standardized production, quality control and new strategies of CIK cell therapy.

We look forward to your active participation and wish you a fruitful and pleasant meeting in Tianjin.

Venue: Conrad Tianjin

Important Dates:

Early-bird registration: Until September 30, 2026

Late & on-site registration: October 1–16, 2026

Main Topics:

1. Advances and clinical applications of cancer biotherapy
2. Biotherapy for autoimmune and infectious diseases
3. Global clinical progress of CIK cell therapy
4. Quality control and safety testing of cell/gene therapy
5. Industrial policies and management of cell/gene therapy
6. Basic research related to biotherapy

Format of the Conference:

Invited Plenary Lectures & Subforum Presentations

ORGANIZERS

Host:

China Medicinal Biotech Association (CMBA)

Organized by:

Clinical Application Committee of Medicinal Biotechnology, CMBA;
Immunotherapy Committee, Chinese Anti-Cancer Association;
Tianjin Medical University Cancer Institute and Hospital

Co-organized by:

International Society of CIK Cells (ISCC);
Tumor Immunotherapy Committee, Tianjin Anti-Cancer Association

JLB (Journal of Leukocyte Biology, since 1955) is a partner of the conference:

- 1) JLB will present 10 trainee awards to graduate students, postdoctoral fellows and young scholars attending the conference;
- 2) The conference will collaborate with JLB to publish scientific papers on the theme of "Exploring Immune Cell Biology: Implications for the Immune Cell-based Therapy" .
